Leave yourself a nice margin around all sides of the poster

# This is where your take-home message should go. Try to keep it to four lines max.

Use this area for your most important data/figures. You don't have to fill up the whole space though.

Use this side for additional data, figures, etc. You could also put your logos on this side if they don't look good on your central image.

Use an appropriate image for your background; a solid colour is also okay! Place your logos at the bottom).
